SAVVAS
realize™

Empowering educators with sustainable and equitable **distance learning** solutions

At **Savvas Learning Company**, we have made it our mission to give educators and families the solutions they need so that their students can get the most out of their learning, no matter where it takes place this year.

Formerly Pearson K12 Learning, Savvas carries on a longstanding tradition of innovation and leadership in K-12 education. Long recognized for building learning solutions from the ground up to be used successfully in a blended learning environment, we set out to further enhance our high-quality content and engaging digital experiences so that all students can maximize their learning anytime, anywhere.

Selecting a partner that can provide critical resources and support needed to respond to your evolving distance learning needs has never been more important. With Savvas, you can be confident that you are working with an educational partner committed to achieving your goals.

Our new solutions include innovative tools specifically designed to help teachers seamlessly shift between in-person and remote learning, and identify learning gaps and the critical content from the previous grade to close them. They also feature immersive activities that increase student engagement as well as easy-to-use technology so that learners get the most out of their digital content.

All of this takes place on Savvas Realize™, our award-winning learning management system. With Realize, students can easily download and complete their schoolwork offline, providing a sustainable distance-learning solution with more equitable access to instruction for your learners. We also offer best-in-class professional learning support to help your teachers take distance learning to the next level this year.

As your educational partner, we are prepared to collaborate and deliver the solutions that provide the digital curriculum and valuable training to make learning flourish.

A Proven and Reliable Learning Management System

Savvas Realize is one of the edtech industry's most versatile learning management systems. It has transformed learning into an active and engaging experience for millions of students.

SAVVAS realize™ Optimized for Distance Learning

This year every moment of instructional time will be critical. That is why we have enhanced our award-winning learning management system, Savvas Realize™, and developed training resources so that educators, students, and parents can take distance learning to the next level.

Distance Learning Toggle

With the click of a button, our new toggle switch enables teachers to seamlessly shift between classroom and remote-learning curriculum, with content that our authors and instructional designers have carefully curated and deemed essential for distance learning. [Learn More >](#)

Interactive PDF Creator

A new tool turns any PDF-based assignment into a dynamic document that allows students to easily interact with and submit their schoolwork in an entirely digital environment. Available October 2020.

Distance Learning Support Playbook

A comprehensive set of digital resources customized to each discipline, the Playbook provides program-specific guidance documents and on-demand videos with best practices for teaching in all-remote or hybrid scenarios. For math and literacy, it also includes the current year's priority instructional content for each grade level.

District Assessment Sharing Tool

Recognizing the need for teachers to administer assessments to students no matter where they log in, we've created a tool that allows school and district administrators to centrally manage and customize common assessments. [Learn More >](#)

Savvas Realize Parent User Guide

To better support parents and caregivers, the guide features how-to videos to help families get their students set up on Savvas Realize and take full advantage of their digital curriculum, online and offline in cases of limited Internet access. The guide is available in English, Spanish, Mandarin, Vietnamese, Arabic, and Haitian Creole and can be downloaded from our [Parents' Corner](#) resource site.

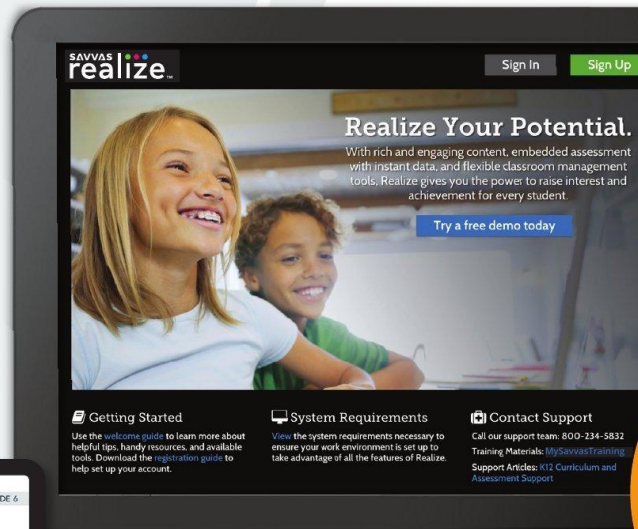

A familiar platform with **thousands of resources** to support high-quality distance learning

Savvas Realize™ includes features specifically designed to help teachers seamlessly shift between in-person and remote teaching. Realize offers an easy-to-use, single sign-on that simplifies access to all your Savvas content, assessments, student data, and management tools. Teachers can customize instructional materials, review students' work, and streamline lesson planning. Realize helps you be more productive, effective, and inspired every day, whether you're teaching in a physical classroom or remote setting.

SavvasRealize.com

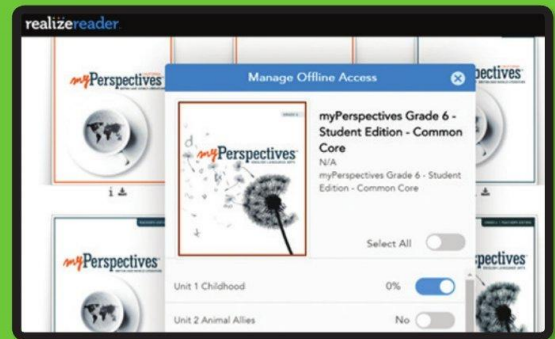

Savvas Realize is **IMS Certified** to work with all top third-party LMS.

Offline, Online, Anytime

The Realize Reader app lets students access content and assignments even when an internet connection isn't readily available. When students reconnect to the web, all their work syncs up automatically.

realize**reader**

Unmatched Google Integration

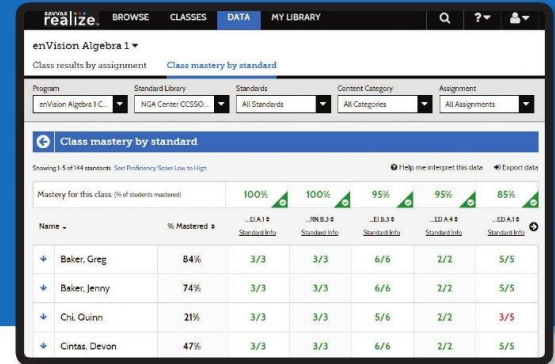

Do you use Google Classroom and G Suite for Education™? Savvas Realize™ provides seamless integration, so you can hit the ground running.

- **Secure Roster Sync:** Sync your Google Classroom rosters easily with Realize. Log in once, access everything.
- **Assignment and Score Sharing:** Realize assessments and posts appear in students' Google Classroom stream. Completed work and scores are shared and recorded on both platforms.

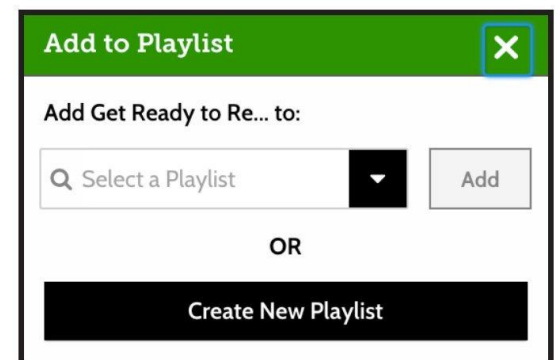

Student Engagement and Progress Monitoring

From any page on Realize, you can monitor student or class mastery, usage, and progress. Realize serves up targeted resources to help when students fall behind.

Use Our Content or Add Your Own

Create your own content and click "Upload a File" in Realize. It's super easy. Realize keeps everything organized and accessible in one central location. You can create custom playlists, rearrange lessons, edit tests, and make assignments. Embed OpenEd resources, add hyperlinks, or insert files directly from Google Docs™ and Microsoft® OneDrive®. There's no limit to what you can do.

The One You Turn To

Designed to Meet the Needs of Educators.

Perfect for distance-learning, in-person learning, or a hybrid approach, Savvas One is a special all-inclusive, one-year digital license. **Savvas One** lets you access our most popular national Math, Science, Literacy and Social Studies programs all in one place online for one price per student, per grade level.*

With **Savvas One**, you are provided the peace of mind that your school or district will have the highest-quality curriculum, aligned to standards and delivered on one of the edtech industry's most versatile learning management systems, Savvas Realize™.

The One You Count On:

- **One K-12 Education Partner** with more than 120 years of experience
- **One Platform** using Savvas Realize™ as your teaching hub
- **One Teacher Experience** to facilitate instruction
- **One Student Experience** to maximize engagement
- **One All-Inclusive Price** provides an exceptional value

Teacher Training Resources to Support Your Distance Learning

Savvas training empowers teachers to deliver content in creative ways and feel confident with new routines for distance learning.

Jump-Start Your Remote Teaching Skills

Professional learning sessions to help deliver more effective distance learning

Principles of Effective Teaching for Remote Learning

Learn to recognize and navigate differences in both the design and delivery of remote learning. Using sample tasks from our core programs, participants explore how effective remote learning should include teacher presence, student interaction, and purposeful independent work.

Enhancing Remote Learning with Teacher Presence

Discover the essential role that teacher presence plays in remote learning by using Savvas program resources to create videos and written messages to strengthen the rapport with students and supplement independent and collaborative student work.

Enhancing Remote Learning with Student Interaction

Explore routines and strategies that promote student interaction to enhance content and language development in a remote learning environment, while also cultivating meaningful student discourse and increasing student engagement through collaborative tasks.

Virtual Coaching Day

Collaborate with Savvas coaches to support educators with research-based practices to develop lessons for remote instruction. Engage in opportunities to co-deliver learning experiences for students, practice observation of virtual discussions and conferences with students, and provide objective, descriptive feedback that informs next steps.

Note: Evidence shows that these instructional practices take time to adopt into practice. Therefore, providing teachers with follow-up days of virtual coaching is strongly recommended.

Navigating Distance Learning with My Savvas Training

On-Demand Program Training

My Savvas Training offers a comprehensive set of distance learning tutorials, videos, and interactive modules for concise program training on both K-12 program curriculum and learning management system features. Recorded webinars provide training to get you started with your new Savvas program, or you can take a deeper dive with curriculum-based training. These resources are available at your convenience, 24/7.

Virtual Program Activation Webinars and Workshops

Virtual Program Activation and Professional Learning Pathways offer synchronous and asynchronous program training and professional development opportunities, designed to strengthen your program implementation; providing the critical program components you need to ensure success in the classroom on Day 1.

Training Transcripts and Certificates

Keep track of completed My Savvas Training offerings on your Training Transcript. You can print Certificates of Completion, or export a training report to track professional development.

Support Tools and Resources

Chat and email support connects you with an educational specialist who can quickly answer questions about your program curriculum or provide implementation techniques. Access FAQs, view contact numbers for technical- and sales-related questions, and access the Savvas Technical Support Knowledge Base.

For districts looking for specialized professional development, we offer customized training sessions to guide teachers in planning and implementing their curriculum for distance or hybrid instructional models.
