HED Briefing: Meeting Our Learners Needs with Digital Credentials

Doris Savron, Vice Provost

November 2022
Market Insights Driving Change

- Prioritization of skills-based hiring vs degree is on the rise with 23% of employers making change in that direction; 39% exploring move to that direction (Gallagher, 2018)

- Pressure on higher education providers to use universal language with employers and make visible through a comprehensive student learner record capturing both skills acquired in their program, certificate, or professional development courses and those they earned through other education providers or prior life experiences (PLA/CLA)

- Employers struggling with retaining and finding talent and questioning the value of degrees
Market Insights Driving Change

- Time starved student expectations of limiting activities they perceive to be useless or irrelevant, needed to re-focus work on program/certificate maps down to single skill units in courses (including general education courses) while cross walking with accreditor/regulator expectations

- Students are expecting for the price of the degree to get something more than a degree in a broad major, they want concrete outcomes (skills and competencies, digital credentials) that will lead to specific jobs, and they do not want to wait until the end of degree to get that next or better job

- Employers do not want badges without authentic evidence –authentic skills assessments are critical in curriculum to support badges
Skills in Focus

**Higher-ed and discipline benchmarking**
- Conversations with colleagues, faculty, review of academic literature, vetting ideas with advisory council

**Academic Leaders: Visioning**

- Programmatic accreditor requirements.
- Process for program design that involves market research and ROI, faculty councils

**College & Stakeholder Conversations**

**Aligned Job Titles**

- Ids for educational programs (CIP) and aligned to occupation codes (SOC).
- Based on CIP/COC identify appropriate job titles.

**Advisory Council**

- Each College has a minimum of one industry council, seek input on degrees, trends, and skills/gaps we need to address

**EMSI (Lightcast)**

- Captures current job posting data tied to titles, CIP/SOC and employer information and grabs skills for those areas allowing us to map programs to in demand skills
Key Stakeholders

- Deans, Faculty, Industry Advisory Councils
- Enrollment (Admissions) Advisors and Academic Counselors
- Instructional Designers
- Employers/Workforce Solutions Team
- Badging Partner
- Technology (Product Teams), Infrastructure including Learning Management System (LMS)
- Data Teams
### Assessment?

<table>
<thead>
<tr>
<th>Assessment?</th>

Key Enablers

- Technical infrastructure and standards
- Program learning outcomes, course learning outcomes, badging outcomes, student achievements
- Learning management system and course design
- Data infrastructure
Power of Data

- Evaluate effectiveness of curriculum design
- Evaluate program effectiveness
- Evaluate student progress and potential needs for support services
- Enables product teams to build key career tools
- Match students to employers
- Leverage data for marketing collateral on website and campaigns
Student Insights

Value of Badge
• 70% - understand the professional benefit
• 66% - believe badging will help with advancing their career
• 68% - worked harder in the course because of the ability to earn a badge
• 75% - believe it will be easier to communicate their skills to potential employers with the badge
• 83% - thought it was easy to claim their badge
• 73% - are eager to start their next course (because of badges)
• 80% - have a strong desire to complete their program (because of badges)

Badge Sharing with Employers or Potential Employers
• 58% will share
• 15% won’t share – mainly because they don’t need them for their current position
