# Digital Credentials Summit

## Igniting the Talent Continuum

Become a sponsor and promote your solution to K-12 • Higher Ed • Corporate Training • Philanthropy • Edtech Suppliers

The IMS Global Learning Consortium community is at the forefront of collaboration and groundbreaking partnerships between institutions and corporations to bridge the gap between education and employment.

To advance a digital ecosystem that facilitates the shift in focus to skills, competencies, and employability, IMS hosts an annual leadership Summit—the only cross-sector event of its kind at present.

The two-day event in February 2020 brought together over 300 leaders and innovators—99 new participants from the year prior—from higher education and K-12, education technology suppliers, business, philanthropy, corporate training, and workforce learning organizations.

With support from institutional leaders and corporate partners—and energized by ongoing work to revolutionize the educational models and pathways that lead to successful futures—we expect participation to multiply rapidly.

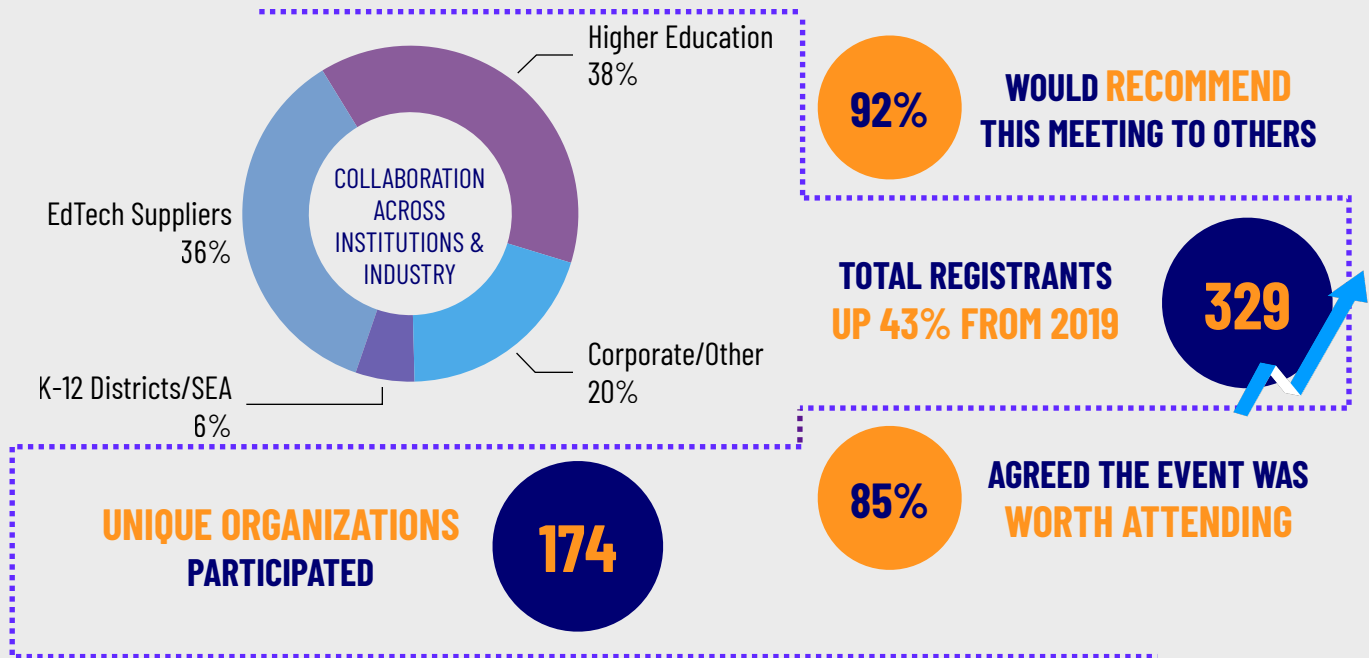

**Connect with the IMS community as a sponsor of the 2021 Digital Credentials for Learning Summit.**

Find out how at <https://www.imsglobal.org/dc/summit/2021>.
