

SURF is the collaborative ICT organisation for Dutch education and research.

We are SURF

WO: Research-oriented higher education
HBO: Higher professional education
MBO: Vocational education and training
UMC: University teaching hospital

Fields of work

Cooperative facilities

World-class facilities

On campus

Security in the digital world

User-centred

Research

Unlimited access

Stimulating Open Science

Education

Flexible education

Diverse learning resources

Using study data

Knowledge sharing and exchange

- Communities
- Study trips
- Events and workshops
- Publications

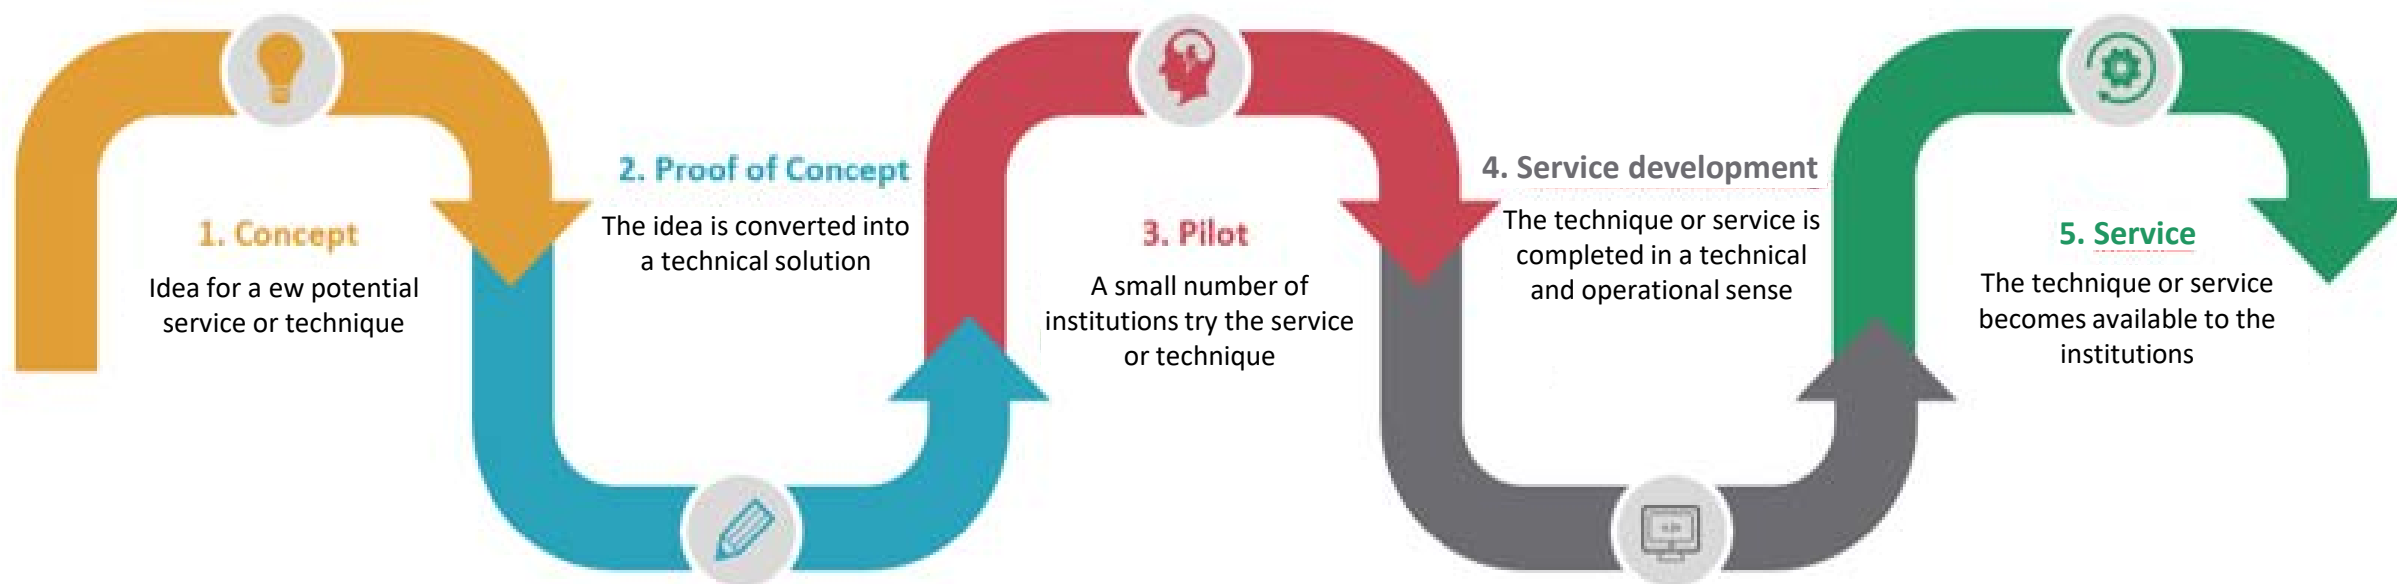

SURF is both a centre of excellence and a meeting point

Innovation

“Great innovation isn’t about keeping the status quo, it’s about challenging it”

Neelie Kroes

ICT enhanced education programme 2015-2018

Our focus

- OOAPI is similar to the new **EDU-API**.
 - *How do we proceed?*
- We use several standards in our NGDLE pilot. We stimulate our institutions and suppliers to use them, for example by hosting challenge days.
 - *How do we point out the advantages of the standards even more?*
 - *How can we stay informed, so we can inform the SURF members and suppliers?*
- Further research on Learning Analytics, looking at **Caliper** and xAPI.
 - *What are the plans for bringing these two standards together?*
- Implementing and improving on **OpenBadges** and its infrastructure, through pilots.

Come and find us!
