Customers can Add Kaltura LTI Tool Through their Customer Management Console

The screenshot displays the Customer Management Console interface. At the top, a dark navigation bar contains a home icon and menu items: Home, Courses, Groups, Calendar, Library, Admin, and Developer. On the right side of this bar are a notification bell, a chat bubble, and a user profile labeled 'Admin'. The main content area is divided into sections. The 'Settings' section includes: 'Edit global settings' (gear icon), 'Profiles' (person icon), 'Policies' (person with checkmark icon), 'Manage apps' (puzzle pieces icon, highlighted with an orange border), 'Manage Google e-mail' (envelope icon), and 'Manage Microsoft Office 365' (Office 365 logo icon). The 'Logs and services' section includes: 'Manage API' (globe with gear icon), 'Manage Enterprise web services' (server rack icon), and 'Data Export Toolkit' (download icon). The 'Data and reports' section is partially visible at the bottom.

Settings

- Edit global settings**
Manage settings that affect the entire site.
- Profiles**
Manage profiles for courses, projects and the site. Profiles are used to grant permissions for various features.
- Policies**
Set policies for profiles and users. Policies are used to grant permissions and override profile settings for various features.
- Manage apps**
Set default availability for apps and plugins, add modules to itslearning menus for various groups of users, and configure whether they have access to extended data.
- Manage Google e-mail**
Set up and manage Google e-mail accounts for your site.
- Manage Microsoft Office 365**
Manage accounts and domains for your Office 365 sites.

Logs and services

- Manage API**
Manage the API and view API logs.
- Manage Enterprise web services**
Manage the integration of the enterprise Web services, such as SIMS.
- Data Export Toolkit**
Export behaviour, attendance, or an assessment to a spreadsheet - as XML or for a third-party system.
