CONTEXT

A World Literature Course in On Line Adult Education (Secondary Studies Graduate)

Reception / Knowledge / **Creation**

Every single student creates a step in a virtual literary trip, called *IOC's squares* containing:

- a square's description
- a poem's recitation
- a short tale of his/her own about the square

ISSUES

Many students don't take advantage of rich feedback in the first versions of their work.

Teachers lack of time.
