Our customers' goals

Moving from closed organisation level badge systems to network and community driven open badge ecosystems!

About Open Badge Factory Ltd

Open Badge Passport

Make a difference with your Open Badges with the help of Open Badge Passport. OBP provides you a badge repository, badge sharing to web and elsewhere and the opportunity to build portfolio pages with your badges. You can also interact with other users and explore badges from around the world.

Open Badge Factory

Open Badge Factory provides the tools your organisation needs to implement a meaningful and sustainable Open Badges system. Create badges easily and issue them from OBF or another system.

Key elements enabling badge ecosystems

- **Community level trust and recognition**
 - Mutual recognition of badge issuing organisations
 - Recognition of badges created and issued by the community
- **“A common language”**
 - Badges aligning with standards recognised by the community

How does the Open Badge standard support the creation of badge ecosystems?

- Endorsements (v.2.0)
- Alignments (1.x – v.2.0)
