Jisc Curriculum Analytics

Shared solutions to complex questions with standardised data
Our standard data/shared service journey...

Learning analytics
- VLE data
- Student record system
- Attendance data
- Library data

Campus analytics
- Better retention and attainment
- Buildings data
- Learning space data
- Location data

Curriculum analytics
- Teaching quality data
- Assessment data
- Curriculum design data

Education 4.0
- Personalised and adaptive learning
- Content data
- Learning pathways data

- Improved teaching & curricula
- Efficient campus

Retention and attainment
- Efficient campus

What questions do our members want to answer?

- I want to know the impact of digital services!
- What does a successful module or course look like?
- I want to know the impact of assessment bunching

...and many more!
