

LTI Advantage What's Next?

Martin Lenord - Turnitin
LTI Working Group Co-chair

Spreading The Word

- Many tools and platforms have already migrated to LTI Advantage
- The IMS community has been hard to improve documentation and provide new resources to help both new implementers and those migrating from LTI 1.1
- LTI 1.1 will be deprecated at the end of the year

More Extension Services - Candidate Final

- Submission Review
 - Directly access submissions from the platform gradebook.
- Course Groups
 - Access a platform's ad hoc groups within a course.
- Caliper Connect
 - Use LTI authentication to connect to a Caliper data store.
- Proctoring Service
 - First steps towards integrating tools that handle proctoring.

Easier Setup for LTI 1.3 Tools - Draft

- Dynamic Registration
 - Based on OpenID Connect Discovery and Registration
 - Set up a tool with just a single URL
 - Easier to manage and configure tools within a platform

LTI in Europe

- Data Privacy Launch
 - Helping streamline the process of handling GDPR requests.
 - Flexible workflow to cover existing online and offline processes.
 - Stepping stone to handle privacy legislation beyond GDPR.
