

MagicBox and Folens Ease Assessment with Homework Space

Free up time for teachers to focus on other areas.

Industry Challenge

Effective evaluation of learning outcomes is necessary to make teaching more responsive and personalized. In the absence of data-driven decisions and planned learning paths, it is difficult for teachers to help students discover areas of strengths and weaknesses to focus their efforts.

The sudden move to online education, assignments, and assessments threw up several challenges, such as:

- Lack of transparency in the assessment system.
- Teacher fatigue, bias, and human error.
- Rare use of classroom assessment techniques.
- Huge amounts of unused data.
- Some degree of rigidity in the grading system.

Homework Space – A Pioneering Solution

Powered by MagicBox™, Folens launched Homework Space, an innovative, first-of-its-kind platform that allows teachers and students to benefit from readymade, curriculum-aligned assignments, and assessments. The platform offers multiple benefits:

- 1

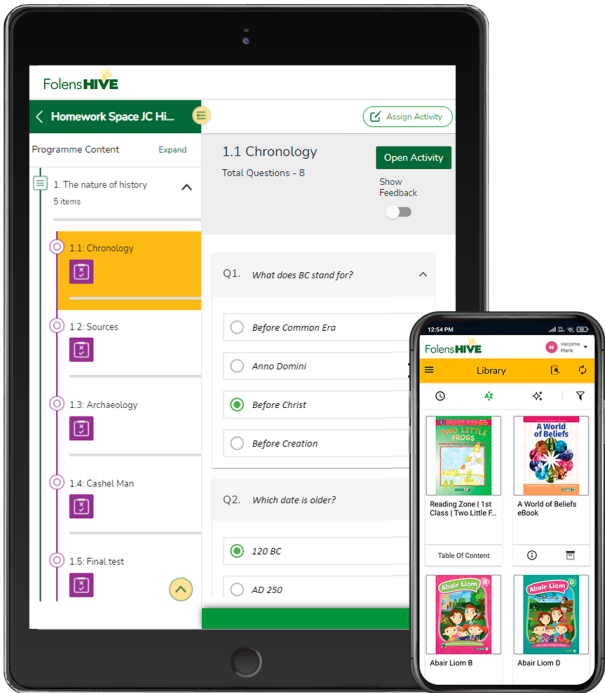

Automatic grading saves time for teachers.
- 2

Teachers get insights into learning progress for individual students.
- 3

Immediate feedback to direct student’s learning efforts.
- 4

Powerful course authoring tool to create or update question banks.
- 5

Allowing students to complete assessments and assignments asynchronously.

Impact on Learning

The efficacy of MagicBox™ in enhancing the learning experience for students, while improving and easing processes for educational institutions and publishers can be seen from what has been achieved within just a few years.
