The future of digital education has arrived ahead of schedule and it’s a good time to ensure your digital ecosystem can adapt to the changing needs. The first step is establishing a safe, seamless, scalable, and agile foundation for plug-and-play integration. The second step is enriching the faculty and student experience by implementing workflows for resource personalization, assessment, and real-time data. Finally, you can dramatically improve the ability of your ecosystem to support more effective recognition of diverse student achievement through new digital credentialing approaches. This webinar highlights lessons learned from the hundreds of IMS members on their road to digital transformation and helps institutions keep the learning going during the COVID-19 period and beyond.

Resources

- **HED DIGITAL TRANSFORMATION** [https://www.imsglobal.org/about/hed](https://www.imsglobal.org/about/hed)
  Learn how your institution can transform your digital ecosystem including where to start on your journey and how other institutions are using IMS standards to drive digital transformation.

- **IMS PRODUCT DIRECTORY** [imscert.org](https://www.imsglobal.org/about/hed)
  The official listing of products that have passed IMS certification. Using IMS certified products is the most cost-effective way to achieve product integrations to support teaching and learning innovation.

- **LTI ADVANTAGE TOOLKIT** [https://www.imsglobal.org/lti/toolkit](https://www.imsglobal.org/lti/toolkit)
  This toolkit provides information and samples of RFP language for higher education IT and procurement officers to reference when working with partners to adopt LTI Advantage. It is intended to guide conversations and requirements.

- **DIGITAL CREDENTIALS** [https://www.imsglobal.org/digitalcredentials](https://www.imsglobal.org/digitalcredentials)
  Learn how your institution can offer learners modern digital credentials that are learner-controlled, skills-based, verifiable, shareable and discoverable, and interoperable. This includes Open Badges and the Comprehensive Learner Record (CLR).

- **CENTERS OF EXCELLENCE** [https://www.imsglobal.org/coe](https://www.imsglobal.org/coe)
  An IMS Center of Excellence is a valuable resource where you can learn from peer institutions that have demonstrated a strategic vision and practical experience of creating a robust digital ecosystem. Be sure to check out the University of Central Florida’s [LTI Center of Excellence](https://www.imsglobal.org/coe).

- **BUY IMS CERTIFIED** [https://www.imsglobal.org/buy-ims-certified](https://www.imsglobal.org/buy-ims-certified)
  A set of resources that help you understand what to ask for from your vendors and what to include in your institution’s RFPs.

- **IMS MEMBER BENEFITS** [https://www.imsglobal.org/join](https://www.imsglobal.org/join)
  Be a part of the collaboration that is shaping the future of edtech. Already an [IMS member](https://www.imsglobal.org/join)? Contact a program manager (see below) to learn how to get involved in IMS activities to support your digital transformation priorities.

- **LEARNING IMPACT ON-DEMAND SERIES** [https://www.imsglobal.org/li/2020/ondemand](https://www.imsglobal.org/li/2020/ondemand)
  Continue learning at your own pace. New videos will be available throughout summer 2020 to help you enhance your digital ecosystem now and into the future. Future webinars will share information on digital credentials, digital assessment strategies, virtual labs, accessibility, proctoring, and other relevant topics for higher education.
