CODES

D & P = Digital and Print. The textbook is available in both print and some form of digital access.

D = Digital Only

P = Print Only

SSO-CL = Single Sign-On via ClassLink. You can find the link to the publisher in ClassLink. By choosing the link, students and teachers are automatically signed into the digital platform housing the textbook.

iPad = When using this textbook on an iPad with the ClassLink IOS app, you must login twice to get to the application. You login to ClassLink, choose the application, then login to ClassLink again. You must enter pickens as the code. It says optional, but it is actually required.

SSO-SGY = Single Sign-On via Schoology. You can find the textbook app on the left-hand side of the home screen in Schoology. Right now, McGraw Hill is the only publisher with a Schoology app (ConnectEd), but more are coming.

AR = Auto Rostering (Tuesday and Thursday updates from PowerSchool). This means the rosters are updated from PowerSchool every Tuesday and Thursday evening. Teachers do not need to manage adding students and assigning app codes to students.

CC = Common Cartridge in Schoology. This means the textbook is broken down into hundreds of individual assets (pdf stories, videos, pictures, etc.) and each asset is a link that you can place into your courses as you build digital lessons in Schoology. You can find these by joining your [academic group in Schoology](#), going to resources on the left-hand side of the group's home page, and looking for the folder containing the textbook assets. You can then copy the entire folder to your personal resources and select which assets you want to use and/or share with students.
