# WHAT IS A LEARNING OBJECT REPOSITORY?

## Learning Object Repository (LOR)

A place for teachers, students and administrators to store, search, access and share district created, free curated and procured digital resources used individually or district-wide in teaching and learning from any device and any place.

### Uses:

-  Stock **Google Classroom**, **Microsoft Teams** and all of the leading LMSs with procured, curated and created learning objects
-  Easily **upload, auto-convert and meta-tag** curated and created digital resources to share with teachers, staff and students
-  Establish an **interoperable** foundation for a K-12 Digital Learning Ecosystem
-  Provide the most robust and refined **Federated Search** access to content from multiple sources via one interface

SMART LEARNING OBJECTS™ ARE...

**SHARED**  
**MANAGED**  
**ALIGNED**  
**RIGOROUS**  
**TAGGED**

-  Provide educators with **high-quality instructional resources** correlated to standards
-  Power **personalized learning** using SMART learning objects to create playlists and lessons
-  **Extensive metadata** including learning resource types, grade range, copyright, description, publisher language, attachments and more
-  **NEW!** Engage students in person or remotely with the Get it? **live formative assessment tool**

## SINGLE SIGN-ON & ROSTERING

One Log-In (Tied to LDAP) — Single Sign-On

Access (via LTI® and other APIs) to:

OneRoster\*

Student Information System Integration  
with nightly rostering updates

\*Requires SIS Integration or LOR Lesson Presenter License

*"The SAFARI Montage Learning Object Repository makes our Curriculum Equity Initiative possible through its flexibility, interoperability and equitable access for every school in the district."*

– Lily McDonagh, Director of Education Initiatives,  
Chief Education Office, Chicago Public Schools

## LMS INTEGRATION

Search the LOR from your LMS

Add object links using SSO & LTI®

## CONFERENCING INTEGRATION

Launch virtual meetings, and save  
and access session recordings from the LOR

## ASSESSMENT INTEGRATION

Leverage resources in the LOR within  
SchoolCity's Personalized Review  
Assignments

## FEDERATED SEARCH ACCESS

### Water Quality

MEDIA:

RUNNING TIME: 24 min, 38 sec

GRADES: 9 to 12

TOP CHAPTER: Chapter #1: Introduction to Water Quality

LANGUAGE TRACKS: English, Spanish

PLAYLIST CLASSROOM TEAMS

More than two-thirds of the planet is covered by water. Because water is vital to all life, both the quality and availability of this precious nature resource is critical. Investigate point and nonpoint sources of pollution, consider the potential environmental, economic and health effects of water pollution, and see what scientists look for when they test the water quality of North America's largest estuary...

KEY CONCEPT: Ninety-seven percent of all the water on Earth is salt water, and only a small fraction of the 3 percent freshwater is easily accessible. (48 sec)

PLAYLIST CLASSROOM TEAMS

*"By providing our teachers with a library of vetted, curated resources via the SAFARI Montage LOR, we are enabling them to build their lessons fully without ever having to go out and find additional content. Through the integration with our LMS, the entire process of searching and adding these resources to lessons is seamless from the teacher's perspective."*

– Tricia Kennedy, Executive Director of Instructional Development and Support, Gwinnett County Public Schools (GA)

## SEARCH ALL OF YOUR DIGITAL RESOURCES

ONE SEARCH — Federated Search Access to:

### ONLINE DATABASES

### CLOUD STORAGE

### DIGITAL COURSE RESOURCES

### OERs\*

### VIDEO STREAMING LIBRARY

### DISTRICT CURATED WEB RESOURCES

\*Web links are provided "as is" by SAFARI Montage to free and open educational resources owned or curated by independent third parties who do not endorse or sponsor SAFARI Montage and whose content is subject to their privacy practices and terms of use.

Get it?

## NEW! GET IT? FORMATIVE ASSESSMENT TOOL

Support student engagement during live in-class and real-time remote instruction simultaneously. Teachers can create and/or assign a pre-loaded review playlist for immediate remediation for all students or only to students who answered incorrectly.

## PLAYLISTS

Combine learning objects and activities to create instructional playlists to support personalized learning. Playlists now appear in federated search results, and can be searched by standard.

**NEW! v.8.0**

## LORLessonPresenter™

Manage playlists in lessons with  
Course Scope & Sequence tools

- Easy dashboard access to courses
- Simple drop-down Course Navigation
- Organize playlists into district-created department folders
- Provide district-approved full course scope & sequence and lesson resources to ensure all schools & students have equitable access to relevant instructional lessons
- Teachers can easily copy & customize lesson playlists

- Support for groups of co-editors, providing each with equal access and editing rights on the same playlist. Playlists display the editor, date and time of last edits
- Supports lesson collaboration among lesson co-editors and developers
- **Coming Soon** Course rostering via OneRoster

**NEW! v9.0**

## LOR CLOUD

Now for the first time, the refined features of the SAFARI Montage LOR are available without any need for hardware inside a school district. The LOR Cloud platform is for districts that want to manage all of their curated, created and procured learning objects in the cloud, interoperably with all of their other district enterprise solutions. It is ideal for flexible in-person and remote instruction needs.
