IMS Global Standards
Digital Learning Revolution Program

**Commitment**
- Receive consultation and support from IMS to determine the exact needs of your district
- Get resources that will help ascertain what to ask from vendors and what to include in RFP's
- Access the IMS Certified Product Directory (imscert.org) which offers the widest choice of products available in a one-stop shops

**Foundation**
- Save time and money while provisioning users and automatically authorizing software applications
- One-click, seamless launching for teachers and students from the most relevant and convenient access point
- Key Standards: OneRoster®, Learning Tools Interoperability® (LTI®), Common Cartridge®

**Instructional Impact**
- Establish a trusted connection between applications for ongoing transfer of data
- Provides a means for collecting assignment scores and grades across a wide array of digital resources in a single place of record
- Key Standards: LTI Advantage, OneRoster Results Service, Thin Common Cartridge

**Advanced Insights**
- Quickly and securely integrate badging platforms with other systems without doing custom integrations
- Provide educators a faster and more reliable way to align content to learning standards and support the transition to standards-based and competency-based learning
- Key Standards: Open Badges, Competencies and Academic Standards Exchange® (CASE®)
